1. **Commander Trait** – This Trait has multiple effects in the game and most are mentioned in the rules where those aspects best apply. The Command Radius was not defined. Insert the following text as the last line of the second paragraph on page 29 under the heading ‘Traits’: *“This Trait grants the model a Command Radius equal to its CMD Rating in inches. Models on the Commander’s Crew with a lower CMD Rating may substitute the CMD Rating of their Commander if they are within its Command Radius for all Panic Checks.”*
2. **Flamethrower Gear Trait** – Remove the last bullet point ‘Intense Blast’ and its text entirely. Replace with the following bullet point text: *“**Fixed Range:** This Weapon cannot reach beyond 2 × its Effective Range.”*
3. **Boomsticks** – Replace the Thrown Gear Trait with the Fixed Range Gear Trait.
